I want to thank our team for their continued dedication and efforts in delivering innovation and newness to our customers as well as leveraging the agility of our vertically integrated supply chain to meet demand and capture market opportunities. First Quarter 2023 Results

The company reported net sales of \$1.396 billion for the first quarter ended April 29, 2023, a decrease of 4% compared to net sales of \$1.450 billion for the first quarter ended April 30, 2022.

At the conclusion of this press release is a reconciliation of reported-to-adjusted results.

2023 Outlook

The company has updated its full-year forecast to reflect better-than-expected bottom line results and the impact of the gain on the early extinguishment of debt in the first quarter.

For fiscal 2023, the company reiterates its forecast of flat net sales to a mid-single digit decline compared to \$7.560 billion in 2022. The company now expects full-year 2023 earnings per diluted share to be between \$2.70 and \$3.10, compared to \$3.40 in 2022. The company expects full-year 2023 adjusted earnings per diluted share to be between \$2.68 and \$3.08. The company’s adjusted earnings per diluted share forecast excludes the gain on the early extinguishment of debt associated with the open market repurchase and retirement of \$84 million principal amount of the company’s senior notes during the first quarter.

Fiscal 2023 will include a 53rd week, with the fourth quarter of fiscal 2023 consisting of 14 weeks. The company's full-year outlook includes the impact of the 53rd week, estimated at 7 cents per diluted share.

The company expects second quarter net sales to decline low- to mid-single digits compared to \$1.618 billion in the second quarter of 2022. Second quarter earnings per diluted share are expected to be between \$0.27 and \$0.32, compared to \$0.52 earnings per diluted share in the second quarter of 2022.

The company's second quarter and full-year outlook exclude the impact of any future debt or share repurchase activity.
