The following summarizes Bath & Body Works, Inc.'s political contributions and memberships in trade associations that engaged in government advocacy during calendar year 2025.

We engage with government agencies and officials to foster dialogue on policy matters that impact our company's business goals. In the course of advocating on policy matters and building relationships with government officials, we may make political contributions (including those devoted to ballot initiatives or referenda), in compliance with applicable federal, state, and local laws.

The information below details our contributions and membership dues that supported advocacy for calendar year 2025.

1. POLITICAL ACTION COMMITTEE AND CONTRIBUTIONS

We did not maintain a political action committee ("PAC") for calendar year 2025. We dissolved our former PAC, effective July 22, 2021.

2. TRADE ASSOCIATION MEMBERSHIPS

We are a member of certain trade associations that assist us in achieving long-term strategic objectives. Some of these trade associations engage in political activities, which include making political contributions and lobbying. Although we participate in these organizations, we do not exercise control over them and may not agree with all the positions of each organization. We periodically review our memberships and make adjustments according to our priorities.

The following trade associations have informed us that the amounts of dues or other payments set forth below for calendar year 2025 were attributable to lobbying activities and would therefore not be deductible under Section 162(e)(1) of the Internal Revenue Code, if made directly by the company.
